HARD SKILLS

SKILLS

Languages
- Javascript
- Python
- Typescript
- HTML
- CSS

Technologies:
- Reactjs
- AngularJS
- Bootstrap
- Nodejs
- MongoDB
- ExpressJS
- Git

Familiar:
- MySQL
- Json and XML

AREA OF INTEREST

- full stack developer
- Software Engineer

SOFT SKILLS

- Creative
- Teamwork
- Communication Skill

PROJECTS

EMPLOYEE MANAGEMENT SYSTEM

- Developed an intuitive user interface for administrators to efficiently manage employee data.
- Created forms and data validation mechanisms to capture and store essential employee information.
- Leveraged MongoDB as the database solution for efficient storage and retrieval of employee data.
- Designed and implemented data models and database schemas to ensure data integrity and optimal performance.

ZOROFY ECOMMERCE WEBSITE

- Implemented lazy loading technique to load web pages and content on-demand, reducing initial page load times and conserving system resources.
- Developed a visually appealing and intuitive user interface using AngularJS, HTML5, and CSS3.
- Developed an administration panel to manage product inventory, including adding, editing, and deleting products.
- Integrated external APIs to retrieve and display data dynamically, such as product information, pricing, and availability, ensuring up-to-date and accurate data for users.

BANK MANAGEMENT SYSTEM

- Implemented a secure user registration and login system, allowing customers to create accounts and securely access their banking information.
- Developed features for customers to manage their bank accounts, including viewing account balances and transaction history.
- Integrated MongoDB as the database system to store and retrieve data efficiently, ensuring scalability and reliability.

WEATHER WEB APPLICATION

- Developed a Weather Web Application using HTML, CSS, JavaScript, and an API.
- The project aimed to provide users with real-time weather information for any location.
- I designed and implemented a responsive user interface using HTML and CSS, ensuring a visually appealing and intuitive user experience across various devices and screen sizes.
